

the PCI Way

Introducing our speed suite of solutions

pci | bridge

What if you could unlock your productivity with digital workflows, manage plants inventory with real-time supply chain information and enable faster decision-making with data visualization?

KEY FACTS

10-20% potential gain on manual tasks for data-led digital decision-making technology

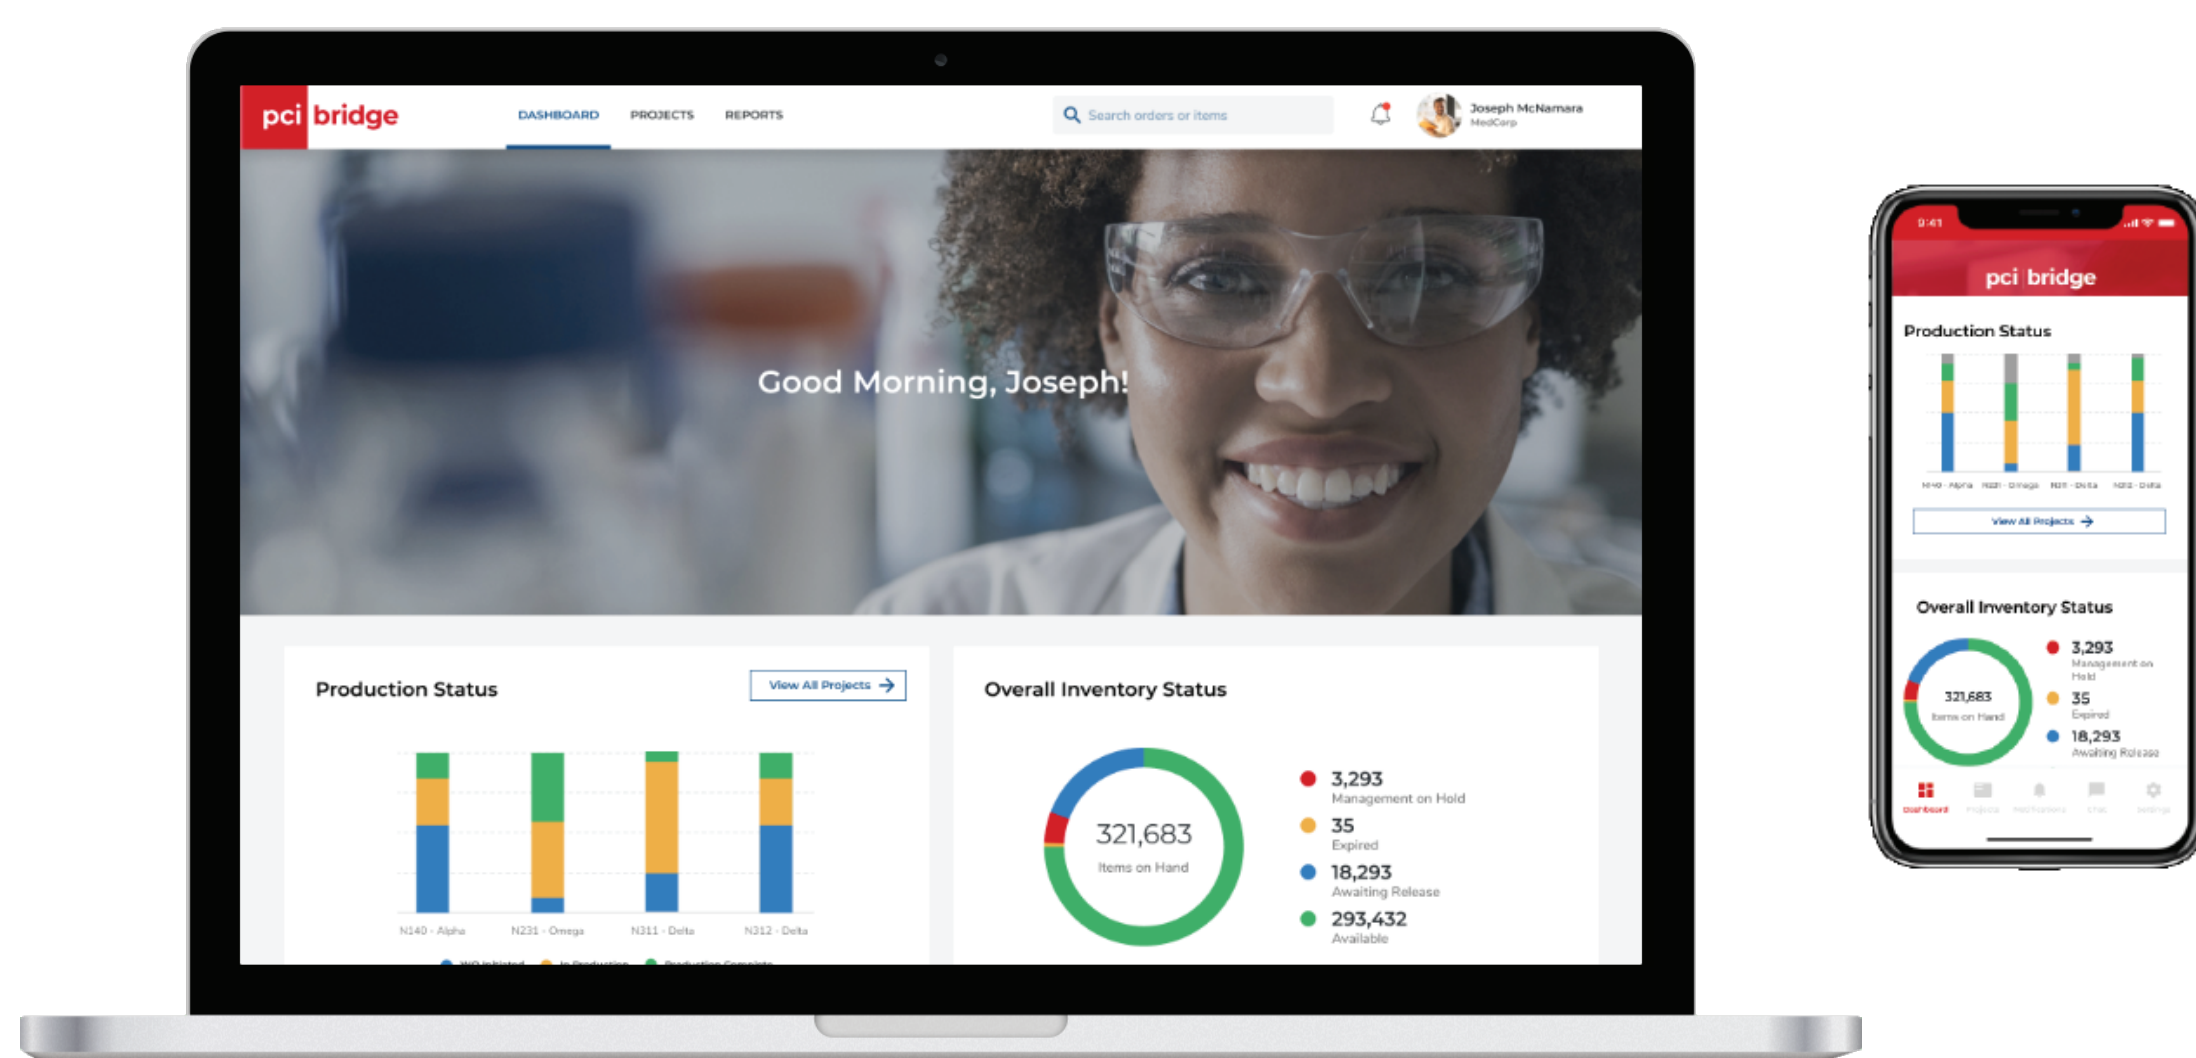

2-8% is the potential cost saving and efficiency gain of data driven supply chain management for improved inventory control

\$1500 average annual cost per employee of email overload

The PCI Way - looking to the future and seeing the potential that digitization and technology hold for the pharma supply chain

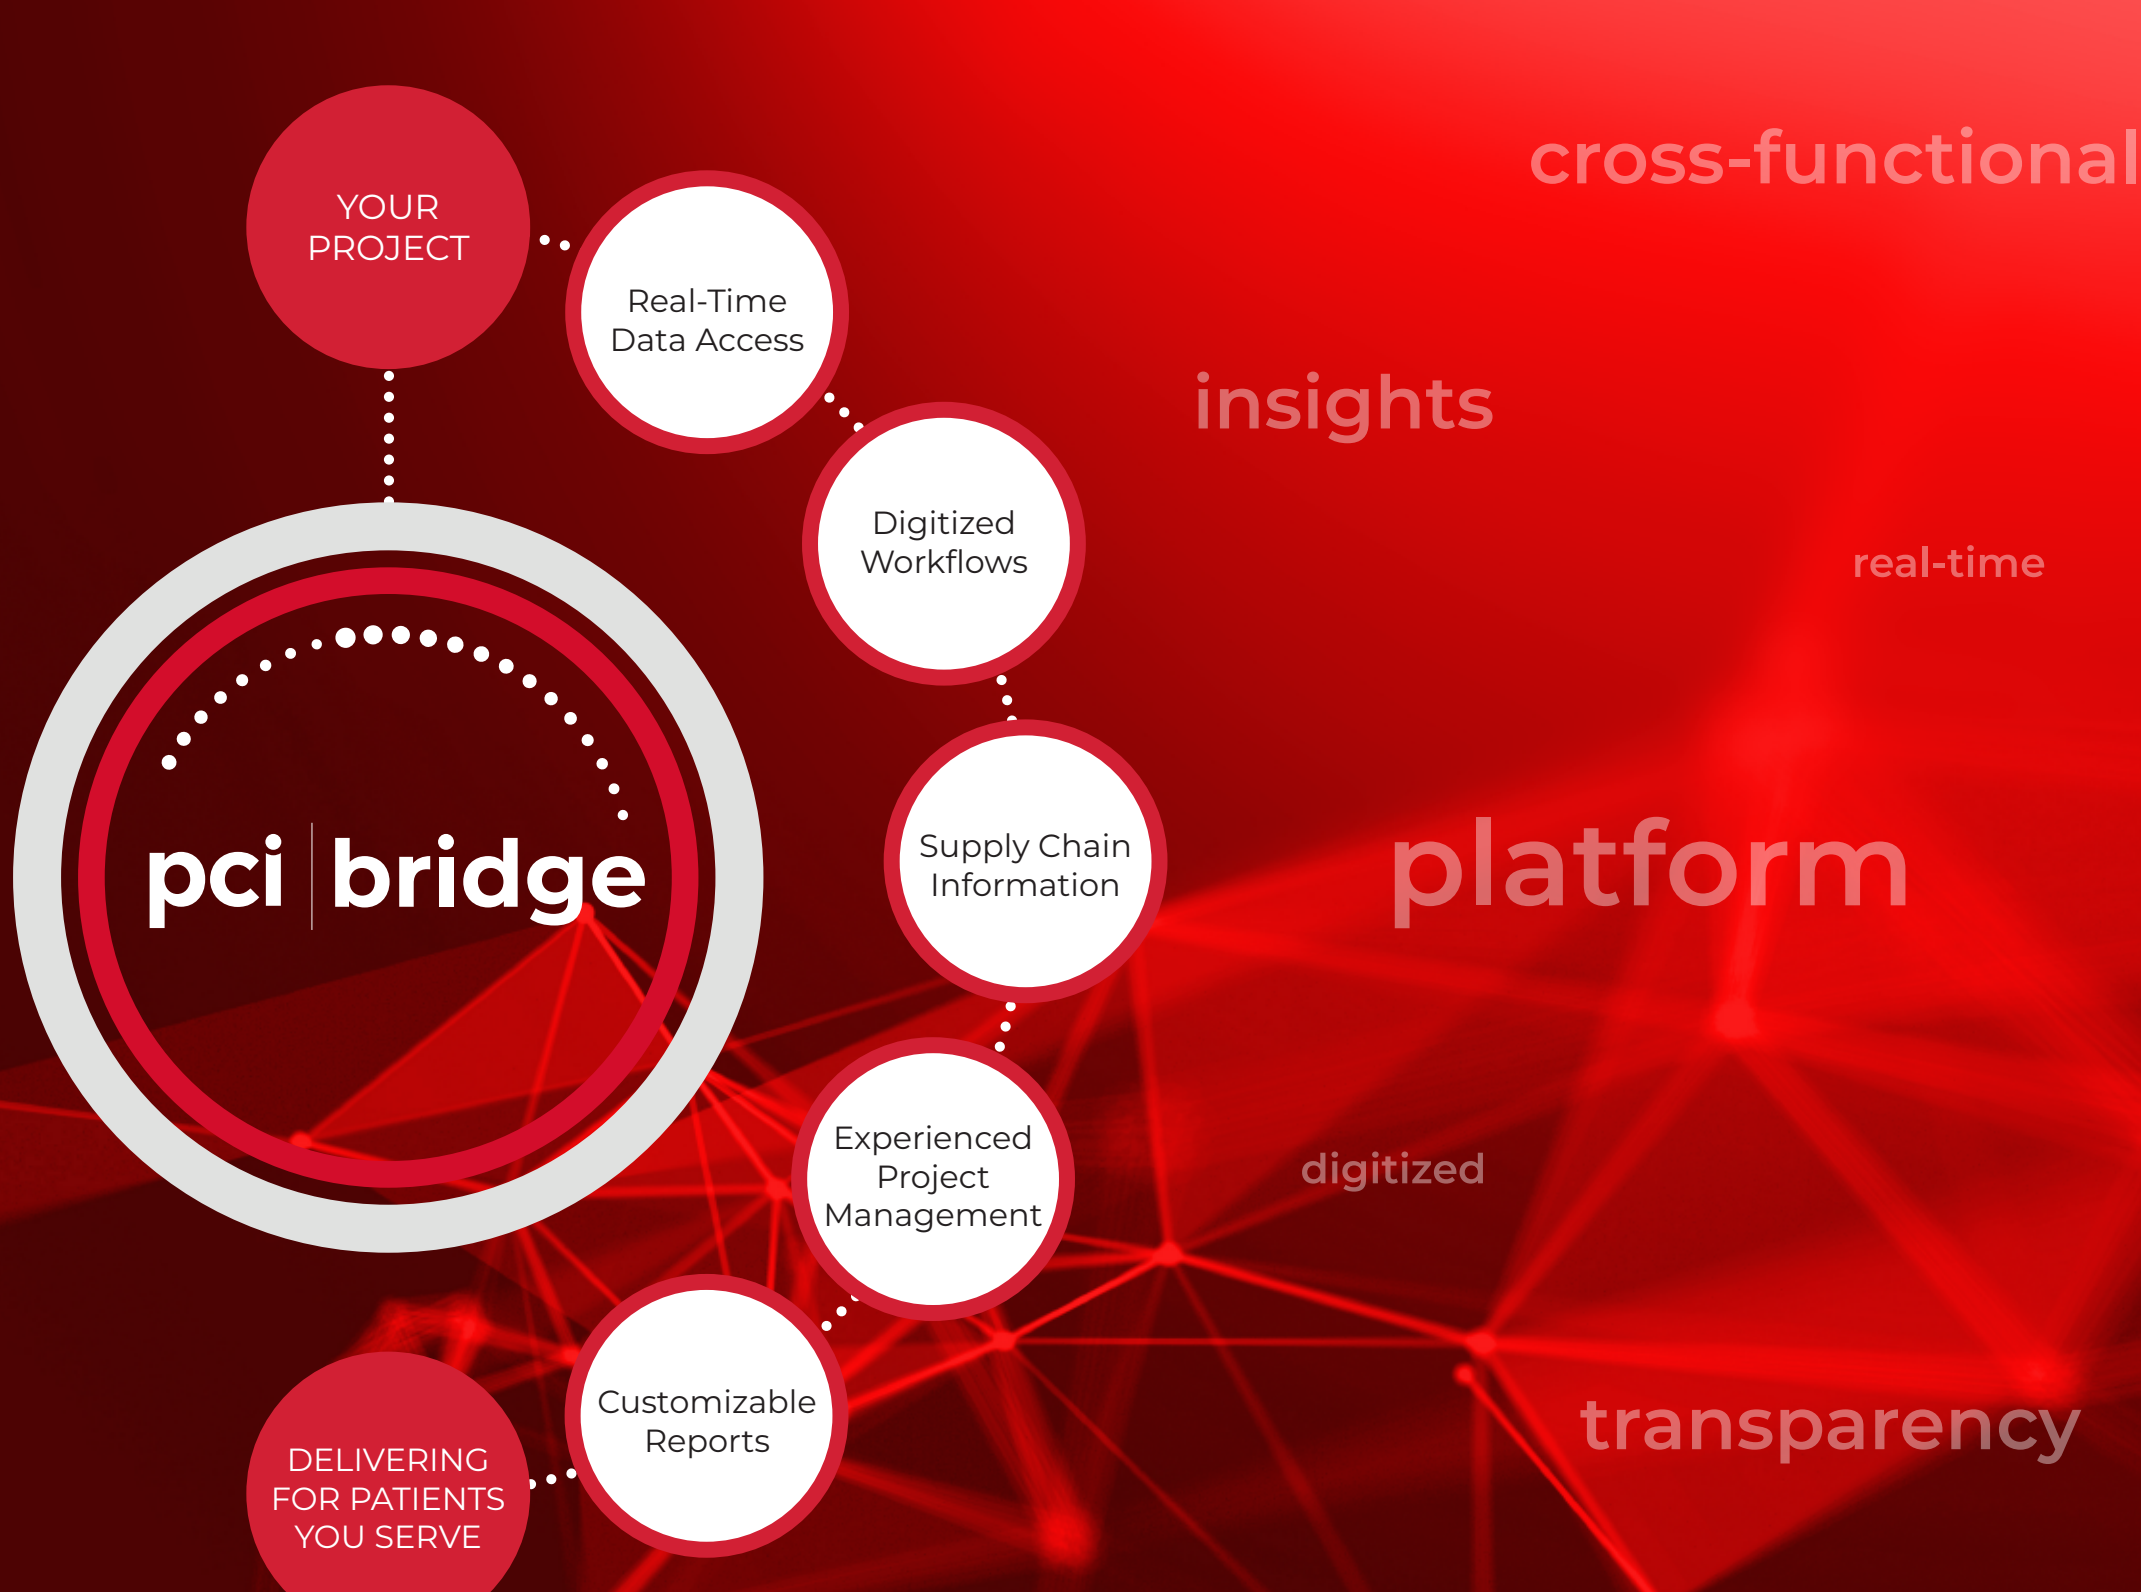

Elevating your customer experience with pci | bridge

“We believe there is a tremendous opportunity for us to continue to elevate our customer experiences through digital transformation. Our pci | bridge platform has been co-created with our pharmaceutical and biopharmaceutical customers, and is at the heart of our efforts to readily and seamlessly share supply chain information and deliver efficiencies.”

Wayne Hull, Chief Digital & Technology Officer, PCI Pharma Services

pci | bridge solution
